

Unitel Fuel Tank Gauge

Hydrostatic (Percentage)

About the product

The Unitel Hydrostatic Fuel Tank Gauge from [Afriso](#) is a pneumatic tank level indicator designed for use with fuel oil and diesel. This fuel tank level gauge is plunged until the needle settles on the volume left within the storage tank, which is displayed as a percentage. Both horizontal and rectangular tanks with heights between 900mm and 3000mm can make use of these [fuel tank gauges](#), making the Unitel an extremely adaptable gauge.

- Pneumatic fuel tank contents gauge
- Spring loaded plunger
- 1" and ½" M BSP dual threaded
- Supplied with 20metres of PVC capillary
- Impact resistant casing for wall or storage tank mounting
- Suitable for diesel, kerosene, biodiesel up to B100, water and urea
